And you never (x2)

Understand

When you always (x2)

Act the same

Oh beautiful

Your lips taste of red

And copper, and copper always excited me

And you never (x2)

Understand

When you always (x2)

Act the same

I need to hear your laugh when

I'm dying on the other line

You perform better when I'm not near you, not near you

And it cracks

The world spins away

And I'm flying again

I can't believe (x2)

That this is over again

I can't believe (x2)

Pieces will carry away pieces of you in me

Oh beautiful

Your lips taste of red

And copper, and copper always excited me
