You're going too fast  
In the wrong direction  
Laughing with eyes ablaze you say aren't we...

But I think I'm gonna die, though  
I think we are going to die

You don't know what you're talking about my friend  
Life ain't that hard

At some point these days I have lost my way  
(Can't find the way back, I've lost my...)

You're going too fast and in the wrong direction  
Laughing with eyes ablaze you say aren't we...

Now I'm in this hole  
Now I'm in this hole  
But I'm sure I'm gonna die, though

You don't know what you're talking about my friend  
Life ain't that hard

At some point these days I have lost my way  
(I can't find the way back)

I've lost my way again

You say.....yourself  
Anymore, anymore  
That we become the ones we hate  
Not anymore

At some point these days I have lost my way  
(I can't find the way back)

I've lost my way  
Not anymore, anymore
