You've been with me through thick and thin,
You've never let me down,
You're always there to lend a hand when there's no one
else's around,
You had the faith,
When no one else believe you gave me strength,
Cause you saw the good in me.

I can't imagine me without you or you without me,
we've always been two- best friends naturally,
And if i'm ever afraid you'll help me pull through,
Forever best friends me and you.

You need to know you're not alone i'll be back real
soon,
There's not a day when i'm away when I won't think of
you,
Don't give up hope,
we'll be a team again and in your heart youv'e got to
know i'll always be you friend.

I can't imagine me without you or you without me,
wev'e always been two- best friends naturly,
And if i'm ever afraid you'll help me pull throooooough,
forever best friends me and you,
forever best friends me and yooooou.
