"GOOD FRIENDS"

Visit "[GOOD FRIENDS](#)" on MotoLyrics.com

Good friends
Are those who stick together
When there's sun and
in the heavy weather
Yeah

Through smile after smile
That's how it will be
just you and me...

Till the end I'll be with you
We will go where our dreams come true
All the times that we have been through
You will always be my best friend

Till the end I'll be with you
We will go where our dreams true
All the times that we have been through
You will always be my best friend
