Here we are safe at last
We can breath a sigh
It seems the storm has past
Through it all no one knew
That all the tears in heaven
Would bring me back to you
No one that I know imagined we would make it!
But it only matters that we both believe!

Chorus:

You and me, we're a miracle
Meant to be and nothing can change it.
Mountains move and oceans part when they are
standing in our way!
You and me, we're a miracle
Angels stand watching over us.
And heaven shines upon us everyday!

Every time I felt near defeat!
You were there for me
On my side completely
You give me strength
You set me free!
Just as because of you
I'm more then I can be!

When I'm with you the world is ours to reach for
Together there is nothing we can do!

Chorus

The chance was so unlikely
that we would ever meet
Two stars among the heavens
Destiny brought you to me!

Chorus
