Wonderland

Slipping sliding
Free fall flying
Spinning spirals
Stripping round
Reeling rolling
Tipping toeing
Think we're going underground

There's a whole new world on the other side
We can find our friends at the end of the line
No matter where we fall or where we land
I beleive we're part of the master plan

Who Knows where (Who knows where the journey ends)
The journey ends (Catch me if you think you can)
Take my hand (Take my hand, we're going to..)
We're going to a wonderland

Way up high (Way Up high I'll fly with you)
We can fly (To a place where dreams come true)
Take my hand (Take my hand, we're going to..)
We're going to a wonderland
We're going to.. (We're going to..)
We're going to..
We're going to a wonderland
We're going to..
We're going to..
We're going to a wonderland

Twisting turning
Living learning
Forever changing
Where we're right
Plotting scheming
Hoping dreaming
2 steps forward, 1 step back

Look to the left
Look to the right
Look straight ahead

You'll see the light
Take a deep breath
Then let it go
Together we'll travel down every road

Who knows where (Who knows where the journey ends)
The journey ends (Catch me if you think you can)
Take my hand (Take my hand, we're going to..)
We're going to a wonderland

Way up high (Way up high, I'll fly with you)
We can fly (To a place where dreams come true)
Take My hand (Take my hand, we're going to..)
We're going to a wonderland

Come on, I wanna fly with you (I wanna fly with you)
To the place I want to take you to
We're going to make a dream come true
Take my hand we're going to..

Who knows where (Who knows where the journey ends)
The journey ends (Catch me if you think you can)
Take my hand (Take my hand, we're going to..)
We're going to a wonderland (A wonderland)
Way up high (Way up high, ooh ooh)
We can fly (To a place where dreams come true)
Take my hand (Take my hand, we're going to..)
We're going to a wonderland
(song starts fading)

Who knows where
the journey ends
Take my hand
We're going to a wonderland (A wonderland)
Way up high
(song fades out)
