Sitting on the porch swing  
With these memories  
That we left behind  
And I said I loved you  
Why can't I mean it  
That's just something that I have to find  
I didnt know just how

And I said I'm sorry  
For the things I said and did when I was with her  
And I cant take back those tears you cried

Life goes on without you  
Like we never ever were  
And you said your happy  
But if you only knew  
The way i looked at her  
I cant let her know

And I said I'm sorry  
For the things i said and did when I was with her  
And I cant take back those tears you cried

Said I couldnt live without you  
But I was wrong  
I was wrong

But I said im sorry  
For those things I said did when I was with her  
But I cant back those tears you cried  
Yeah, yeah, yeah  
And I said I'm sorry for the things I said and did when I  
was with her  
And I know you wish I'd die.
