Feel like I'm trapped and I can't get out  
Heart full of pain, head full of doubt  
And when I think about it, it just gets worse  
The more it hurts the more I know  
I've got to see her again

Stuck like a magnet to the freezer door  
Face to the sun but my back gets so cold  
And when I think about it, it just gets worse  
The more it hurts the more I know  
I've got to see her again

I'm an incomplete empty vessel  
Waiting for the one to fill me up  
Waiting for the day to hear you say "I Love You"  
But you won't so I'm gonna leave  
I do believe I've had enough

Told myself it's all in my mind  
Told myself she's not my kind  
But when I think about her it just gets worse  
The more it hurts the more I know  
This heart of mine will never mend

What if she knocked upon my door?  
I wonder if I would be strong enough to ignore  
That everything about us comes out cursed  
The more it hurts the more I know  
I've got to see her again

I'm an incomplete empty vessel  
Waiting for the one to fill me up  
Waiting for the day to hear you say "I Love You"  
But you won't so I'm gonna leave  
I do believe I've had enough

I feel the pressure comin' on  
To the left of right a line has been drawn  
But when it comes to my lady, my lady comes first  
It always hurts, I'm gonna leave  
I do believe I've had enough  
I'm gonna leave I do believe I've had enough

I'm gonna leave I do believe I've had enough
