### "Good-night"

Why does the moonlight make the night feel so bright  
When I worry about a simple thing  
It seems like my mind is becoming muddled

I knew from the beginning that I would be defeated by  
the sadness  
I couldn't sleep I called you  
I only want to hear your voice right now

We're walking on different paths, but I feel like I'm by  
your side  
Just say "Good night" to me  
Surely, surely You'll notice my feelings  
I'm selfish, but just for tonight I want to cuddled by you

This weekend I want to see you again, it's been a long  
time  
You're on the other side of the line  
Your voice is so dear to me

Tomorrow I want to return to my normal self  
Talk a lot on the phone after midnight  
Sorry, and then, "Thank you"

No matter how hard you try, sometimes you can't  
always do what you want  
Don't act so tough, at those times  
Just cry, cry, I can't believe it  
The morning when I wake up, it would be nice if I can  
start having the next  
Dream again

We're walking on different paths, but I feel like I'm by  
your side  
Just say, "Good night" to me, that's all  
Surely, surely, our feelings are the same  
Even more than longing, I will someday hold a certain  
thing in my hand
