"Bad Dreams"

Visit "[Bad Dreams](#)" on MotoLyrics.com

Woke up in the middle of the night cold sweating Ass
stinging no breath legs clinging to the bedside Hard
pressed just to get a little rest every night Same shit
can't remember last time that I slept right This
situation's gotten out of control With all this stress and
confrontation I just might overload My problems follow
me to sleep at night won't let me go The more I hide
the more they thrive deep down inside of my soul
Listen Got burnt by women poor dirts? In Venice
Landlords and tenants, got served by creditors [Joyo
Verlade] We have a deep passion We can't keep
dwelling on problems Close relations past friendships
don't last No benefits plan, wrote a letter to my senator
[Joyo Verlade] We have a deep passion We can't keep
dwelling on problems This situation's gotten out of
control (hey he hey) With all this stress and
confrontation I just might overload (hey he hey) My
problems follow me to sleep at night won't let me go
(hey he hey) The more I hide the more they thrive deep
down inside of my soul (hey he hey) Singing These bad
dreams {*2X*} These bad dreams {*2X*} Shit now I
lay me down to sleep Please god let it end once again
let me live life [Joyo Verlade] We have a deep passion
We can't keep dwelling on problems Cos I can't do
another long dance with a ghost See my head wanna
come around half past midnight [Joyo Verlade] We
have a deep passion We can't keep dwelling on
problems This situation's gotten out of control (hey he
hey) With all this stress and confrontation I just might
overload (hey he hey) My problems follow me to sleep
at night won't let me
