Girl I love you, you know I do And I do not doubt that
you love me too Aw but you're so young Your life's just
begun Something tells me there'll come a day When
you just might wonder what slipped away While you've
been with me And you will want to be free So Shoot 'em
up baby Shoot 'em up baby Shoot 'em up baby Get on
out and shoot 'em up, shoot 'em up Shoota, shoota
Come on shoot 'em up baby, shoot 'em up baby If I lost
you now I would surely cry But to lose you later, you
know I'd die Don't misunderstand Girl I have nothing
planned You should go where the lights are bright And
make all the scenes and stay out all night And have no
fear Girl I'll be right here Shoot 'em up baby Shoot 'em
up baby Shoot 'em up baby Get on out and shoot 'em
up, shoot 'em up shoota shoota Come on shoot 'em up
baby, shoot 'em up baby Shoota, shoota, shoota,
shoota, shoota, shoota Shoot 'em up baby, shoot 'em
up baby Go on and spread your wings and fly Try to
touch the sky But keep your powder dry Shoot 'em up
baby, shoot 'em up baby, shoot 'em up baby Get on out
and shoot 'em up, shoot 'em up Shoota shoota Come
on shoot 'em up baby shoot 'em up baby shoot 'em up
baby shoot 'em up baby
