oh-oh oh-oh

When it gets dark we're falling far tonight  
Under the moonlight chasing fireflies  
If I'd ask you, "do you think you want to?"  
Just say yes without feeling like you got to  
It's the way that you looked at me

That night  
When the butterflies  
They came to life  
By your side

So won't you pull me closer, kiss me faster  
Take me to your happily ever after  
Boy don't make me wait forever  
Oh-oh-oh  
You know we'd be so much better  
If we could fall in love together  
Pull me closer, kiss me faster  
Take me to your happily ever after

You lift me up take my feet off the ground  
With just one look it's like you've got me now  
Left me speechless, didn't know I'd feel this  
Just say yes, boy you know that we could do this  
I'm the one you've been dreaming of  
And that's why

The butterflies  
They come to life  
Every time

So won't you pull me closer, kiss me faster  
Take me to your happily ever after  
Boy don't make me wait forever  
Oh-oh-oh  
You know we'd be so much better  
If we could fall in love together  
Pull me closer, kiss me faster  
Take me to your happily ever after

It's in the sound of your voice  
You've got me caught up in your eyes  
And under all the stars  
Can you feel the butterflies?  
And even at the summer's end  
You left with all your promises  
I still remember when you said  
We could make it last

So won't you pull me closer, kiss me faster  
Take me to your happily ever after  
Boy don't make me wait forever  
Oh-oh-oh  
You know we'd be so much better  
If we could fall in love together  
Pull me closer, kiss me faster  
Take me to your happily ever after

So won't you pull me closer, kiss me faster  
Take me to your happily ever after  
Boy don't make me wait forever  
Oh-oh-oh  
You know we'd be so much better  
If we could fall in love together  
Pull me closer, kiss me faster  
Take me to your happily ever after
