This heart of mine seldom lies you see It's often said  
you don't care for me no more. You took so long, how  
could you lead me on Left me wondering where and  
how we went wrong. Chorus Come on baby make it all  
right my baby say it's alright would you baby it will be  
alright if I could only see you Won't you please do this  
for me Heart of mine please just let him go Always  
knew you'd leave and many times I told you so  
Yesterday it was when you walked out my door hopes  
and dreams of mine lay scattered on my floor Chorus  
holding on to your memory is what I've done Oh yeah  
holding on to my pillow is all I've got yeah And the  
power of your thunder belongs to someone new is it  
any wonder I cry the whole night through How we ever  
made it is a mystery to me fire and water were never  
meant to be Chorus
