Wherever you go, whatever you do  
There's gonna be sometimes you wonder  
How you'll make it through  
If you could know you're not alone  
I never left you behind  
Now I'm the angel by your side

Who could've known, who could've seen  
You'd never get the chance to say goodbye to me  
But I know you cared and gave me your heart  
Now when you're crying in the night  
Reach for the angel by your side

You'll hear me whisper in the wind  
Everything will be alright again  
And you'll see me in the ever-changing tide  
When the sun shines through your window  
I'm gonna be there in the light

Trying to be strong for everyone else  
When all you wanna do is give up on yourself  
Close your eyes, I'll hear your prayer  
You can still reach me with your mind  
Love goes beyond all space and time

You'll hear me whisper in the wind...

I know the tears you cry the pain you have inside  
If you would only look  
You'd see the angel by your side
