I know that I've said it before
But I can't take anymore
You expect it all to be here
You got everything and you've never been anywhere
Now you're here talking shit
Nobody cares somehow you don't expect it
End of the show you're hanging your head
Hardcore - what have you worked for?
You fit the part, you think you got some image
And you expect everyone just to give in
No one's buying and now you're crying
You can't expect it when you're so quick to reject it
You'll break because you can't handle it
It's not success on a silver plate
You'll break
And we'll still be here
So quick to point the finger at us
You'll quit and you'll still be mad at us
You never gave a fuck and that's the end of it
Ain't that a bitch
