I think it's time for me to take a seat  
Just sit back and let what's happening  
Run it's course and wreck itself into me

My life starts, stops, and re-begins  
Close my eyes at night to start again  
As my days drift away into the wind

But sometimes I get lost inside my thoughts  
My head is like a heavy rain  
And I have to overthink everything

It will all make sense  
When I know me like I used to know myself  
Like I used to know...

I was somewhere in thought when I tried  
To gain the strength to step outside  
And face into the wind to know if I could feel it  
And how long, how long  
Will I try to right my wrongs?  
I could get some sleep, but I should write this down  
Anyways, I was saying

That sometimes I get lost inside my thoughts  
My head is like a heavy rain  
And I have to overthink everything

It will all make sense  
When I know me like I used to know myself  
Like I used to know...
