"DEAR DARKNESS"

Dear darkness
Dear darkness
Won't you cover, cover me again

Dear darkness
Dear
I've been your friend for many years

Won't you do this for me?
Dearest darkness
And cover me from the sun under the
Words typing
The words are tightening around my throat and, and

Around the throat of the one I love
The timing, the typing, the tightening
Around the throat of the one I love
The timing, the typing, the tightening

Dear Darkness
Dear Darkness
Now it's your time to look after us
Cos we've kept your clothes
We kept your business
when everyone else was having good luck

So now it's your time
Time to pay
To pay me and the one I love
With the wordly goods you've stashed away
With all the things you took from us
