"In a silent violent way"

So your hearts gone round the bend
How many roads have I crossed again
With a friendly grin all over my face
It's a favourite old trick of mine
I knew you'd let me down in a silent violent way
My eyes, they're in the back of my head
How I'd love to look straight ahead
Not over my shoulder

It's an old favourite trick of mine
I knew you'd lket me down in a silent violent way
The tap drps on the verdigris
With every drop it seems to me
I've been here before
