Joe will you be my buddy please  
Stay with me when I fall and die  
Always thought you'd come rushing in  
Clear the shit out of my eye

Joe will you be my buddy please  
Lay my enemies out in lines  
Come in close now I'll wash your feet  
With my hair I'll mop them dry

With my hair I'll mop them dry  
Something over there I do not like  
There's no use to wondering  
Joe will you be my buddy please  
In this hell and day long time  
When I'm trusting my hated tree  
Cut me down with your silver knife

Cut me down with your silver knife  
Something over there I do not like  
There's no use to wondering
