Visit "[S.O.S](#)" on MotoLyrics.com

I am lost, so afraid
thought I knew how to find the way
Without you, I'm blue, c'mon find me,
won't you show me the way?

I tried to find a station connected to you
If only you could find me baby before I am through

CHORUS

(I'm calling S-O-S on the radio)
Save me, only you can take me away
I can feel you coming for me

(I can feel it, whoa)

When I'm found at last I still won't believe it's true
That when we fell, I knew the song of my life lies wholly
with you
