Down by the gentle stream
where you and I would dream
and swept by memories of love.

All through those magic nights
beside the boy you liked
where you and I would soar above.

Now, Im missing you (missing you)
(missing you)
Now, Im missing you (missing you)
(missing you)

The sweetest memories
unraveled
Will I ever feel your touch again?

Now, Im missing you (missing you)
(missing you)
Now, Im missing you (missing you)
(missing you)

Now, Im missing you (missing you)
(missing you)
Now, Im missing you (missing you)
(missing you)
