You double-clicked my heart
You've upgraded my life
You booted up my hard drive
Please be my cyber-wife
You've logged into my soul
You've downloaded my dreams
Let's go to my chat-room
And I'll show you what I mean

I wanna log in to you
So I can prove my love is true
You're the apple of my IBM, let me interface with you
I wanna log in to you
(Log in to you)

Password incorrect
My login was denied
I gotta open up your motherboard
Put my Pentium inside

I got a 21" screen
The colours'll make you dizzy
My attachments are full of love for you
But your modem still rings busy (Beep beep)

www dot love
you at me dot com
You can unzip all my floppy files
And spin my CD-ROM

I wanna log in to you
So I can prove my love is true
I'm free of any virus
And I've been debugged too
I wanna log in to you
So I can prove my love is true
Come be my laptop dancer, I got lotsa RAM for you
I wanna log in to you
