As I leave this pleasant sky
me and reality collide
the only thing that makes me happy
is the thing that kills me inside

(Chorus) Pass it my way
i wont turn away
i cant seem to say no

I AM taken to a place in my life
where i seem to smile again
everything thats painful blocked out
never wanna go back again
(chorus)
I can not believe that you insist i dont even try
You can not imagine the bullshit i went thru in my life

I can not breathe and I can not believe that YOU
insist i dont even try
(CANT SAY NO)
(chorus)
