I don't have much in common with the man from old
Najaf
I think I understand him though I guess I could be off
America is beautiful and flawed
Inspiring, contradictory, and odd
Democracy, Whisky, Sexy

Did you see them pull the statue down? How did it look
to you?
Did you see them hit the picture of a monster with a
shoe?
America was flying through the skies
America was streaming from my eyes

Democracy, Whisky, Sexy

Our day is just his night
But I want him to be right
So I'll drink to him
Please don't let him down

Anything can happen and it's complicated but
I can tell the future from a feeling in my gut

Democracy, Whisky, Sexy
Democracy, Democracy
Expedience, idealism, hope, sexy, whisky
