I have felt silence  
though distractions are in the way  
will my memory bind me  
to all the beauty I have known  
my favourite questions  
are the ones I cant resolve  
can I choose to remember  
or will the days slip away

Further away, further away  
I hope this one will stay

I know I cant measuer  
all that I see  
each moment will pass by  
so the next can have its day  
this strange equation  
brings a smile to my face  
can I choose to remember  
or will the days slip away

Further away, further away  
I hope this one will stay
