lookin over i can see you for free and
i think you could be
some kind of four-leaf clover
growin undiscovered inside me
merry faces in your favorite crowd
so now you wanna go
while i wished it were the other one
laughs aloud just to let me know
i can't deny that i'll be there
until i find that it's free there

well maybe someday you'll smile
instead of turnin the other way
and you'll realize this is the place you need
and you're gonna stay
lookin over my shoulder is the only way
i'll ever see you
when you hover yourself high up above me
just lookin down

now and then i'll see you here and there
but now you're everywhere
you will have to decide that if you walk on by
or return your stare
lookin over my shoulder is the only way
i'll ever see you
when you hover yourself high up above me
just lookin down
i can't deny that i'll be there
until i find that it's free there
