I will take this

All the way to the top
I will take this

Stand up and get out
There are cameras about
Thank the Magstrand

Through the Bushes they Rove
To the Bohemian Grove
They explode Boaz and Jachin

A pyramid, obelisk, M-16, flying discs
It's the same old tricks to me
And though the All Seeing Eye
Is penetrating our minds
I shall let the people see

I shall reveal your conspiracy

I shall reveal your conspiracy
Your conspiracy

Below the Dome of the Rock
They talk with Enlil
They kill and steal to make the deal
To break the seventh seal
Thirteen steps to the launch pad and Sinai
Submarines crawling and hiding underneath the ice
And from deep underground
The Ancients will be found
There is no Heaven or Hell
Only Majority Twelve

And from the moon base this race
Will face their biggest surprise
When we open our eyes

I shall reveal your conspiracy
I'm climbing the Tower of Babel

I shall reveal your conspiracy
I gather my Soldiers for battle

I shall reveal your conspiracy
I'm climbing the Tower of Babel

I shall reveal your conspiracy
Your conspiracy

Annunaki Illuminati
Annunaki Illuminati

I shall reveal your conspiracy
I'm climbing the Tower of Babel

I shall reveal your conspiracy
I gather my Soldiers for battle

I shall reveal your conspiracy
I'm climbing the Tower of Babel

I shall reveal your conspiracy
I gather my Soldiers for battle

All the way to the top
I will take this

All the way to the top
I will take this
