Wrap your arms around me. -
When you're so far away at the end of each day

Counting the moments till you fade away.
Inside my soul under passions control
Are feelings I canY find no words to explain

Just like the first time I'm helpless again.
Wrap your arms around me
let your love surround me.
Make love to me now like never before.
Wrap your arms around me
from the day you found me

You'll never be alone.

The nights are so cold
with just your mem'ry to hold.
I've tried to be strong
reaching out holding on.
Alone in my bed I cling to each word you said

Wanting you more ev'ry day we're apart

And each precious moment is safe in my heart.

Wrap your arms around me
let your love surround me. . . .
Just like the first time I'm helpless again.
Wrap your arms around me
let your love surround me. . . .
Wrap your arms around me
you'll never be alone.
