

Nature by Atrophy

"Violent by Nature"

Visit "[Violent by Nature](#)" on MotoLyrics.com

Morbid fascination instilled within our young
Raised and weaned on cold steel, the damage it has
brung
Little plastic war toys always within reach
Replicas of war, what lessons do they teach

Pre-chorus:

Minimal control, that's why this land is great
Accidental death, the lesson learned too late
Escalating tensions sweeping 'cross our land
A gun beneath your pillow you fail to understand

Images of violence flicker on the screen
Taken in by young eyes unsure of what it means
Violent heritage echoed in their games
Countless shattered lives, no one learns their names

Repeat pre-chorus

Chorus:

Violent by nature (4x)

Solo: Lykins

Children raised on violence, soon no place to run
Setting fights with bullets, the nightmare's just begun
Staring out the window, your child plays with friends
Waving plastic pistols, the circle never ends

Repeat pre-chorus

Repeat chorus
