every day  
every day i'm thinking of you  
show me the way  
the way the world is high above you  
yeah  
and we'll fly  
along with the canyon arrow  
got it by  
the song of the silent sparrow  
that takes us all around this town and back again

every night  
every night i'm having the same dream, oh  
is it right?  
that i'm always dreaming the same dream ohh  
that we fly  
along with the canyon arrow  
got it by the song of the silent sparrow  
that takes us all around the moon and back again

every day  
and every night i'm dreaming of you, ohh  
show me the light,  
show me the light that is right above you  
and we'll fly  
along with the canyon arrow  
got it by  
the song of the silent sparrow  
that'll take us all around  
and we'll fly  
along with the canyon arrow  
got it by  
the song of the silent sparrow  
that'll take us all around this world and back again

alone.
