A LONG DAY CONTINUES

Until tomorrow

The only voice was far away

Until tomorrow

The only sound was my mistake

Until tomorrow

It's all that I can say

Take the time and find the world another way

A world being more than yesterday

It's on half find the way

To this new religion

If the world can call the lies another face

A world being more than yesterday

It's only how find the way

To your new religion

If the world collapses I know

A world would be ours and time

Its somehow find the way

To your new religion

If the world collapses I know

A world would be ours and time

Its somehow find the way

To this new religion

It seems it's more than I can carry on

It seems it's more than I can take

It seems that time it's finally now

I think I have the right speech

3x

Take them all together show the love ãfÂçâ, ã,Â!

Keep them all together, keep them warm

Hey, it's the sun, it's the sunãfÂçâ, ã,Â!
