

Agony Scene, The "Predation"

Visit "[Predation](#)" on MotoLyrics.com

In death we are as one.
Infested with disease.
I want to see your eyes in the moment your mortality is realized.

In death we'll suffer more.
With skin torn open wide.
I wanna watch you bleed until you can no longer feel the agony in death.
Suffer for my sins.
A thirst I cannot satisfy.
This is the end.
I will be born again in death.

We are as one.
Your pain has become mine, because I no longer feel.
You've shown me the frailty of human life.

In death we'll suffer more.
With skin torn open wide.
I wanna watch you bleed.
Until you can no longer feel the agony in death.
Suffer for my sins.
A thirst I cannot satisfy.
This is the end.
I will be born again in death.
