

Agony Scene, The "The Opposition"

Become the opposition.
The cancer feeding from within.

A parasite, we're met with such strong resistance.
They've built these walls to hold us back.
Let us burn them to the ground.
We raise our voices in protest.
We welcome death, and you can't kill us all.

Become the opposition.
The sin still coursing through our veins.

The blasphemous, we're met with such strong
resistance.
They tied our hands behind our backs, watched in
silence as we drown.
Let us burn them to the ground.
We raise our voices in protest.
We welcome death, and you can't kill us all.
