You keep me worried all the time

You say you love me
I believe you do
But I think you're trying to quit me
And what more can I do?

Hey, hey, hey baby
What can I do to change your mind?

I've got the blues about you baby
You keep me worried all the time

You've got a man in the east
You've got a man in the west
I'm sitting here wondering
Which one you love the best

Hey, hey, hey baby
What can I do to change your mind?
Got the blues about you baby
Keep me worried all the time
