There's a moon in the sky

It's called the moon

And everybody is there, including,

Saturn, Mercury

Saturn, Venus

Saturn, Mars

Saturn, Jupiter

The Van Allen Belt

Roll-roll-roll-roll-rollin' in Andromeda

Won-ton-ton-ton rama-in-Andromeda

There's too many rings---This is the Space Age

There's too many things---This is the Space Age

Just ain't no atmosphere tonight

If you're lucky you get to ride in a gold meteorite

If you're not, you get a mouth, a mouthful of red  
Kryptonite

You better move over

Here comes a Super-nova

Kryptonite- - -

Destination moon

If you're in outer space

Don't feel out of place

'cause there are thousands of others like you

Others like you

Others like you

Well there's a moon, it's in the sky

It's called the moon

And everybody is there 'cluding

'ranus

Neptune

'ranus

Pluto

Destination moon

Many gamma rays around it

Van Allen Belt surrounds it

This is the Space Age

Please don't worry

This is the Space Age

Just don't worry

This is the Space Age

Others like you

Ahhh ahhh.....
