If you walked away from me today
(Woh) I am sure that who you were goin' to
Would fill the way as I do
Baby, it's you who fills up my life.

And if you walked away from me today
Wouldn't change a thing
But still be singin' celebration of you
Baby, you do, you fill up my life.

Fill my life till now
No one's been able to show me how
To fill my life like you
You are the one who taught me to.

(And) If you walked away from me today
Never to return until the journey
That you made had ended
I know you planned it just to fill up my life.

Fill my life, now I know
What it feels like to overflow
Until my life is through
All I'm here for is here for you

Coda:
Just for you
Only for you
Ha hah
