[Verse 1]

In the opaque of the morning sun. Your silhouette takes  
to the wing,  
Ohh Pain is such a lonely place, Where black angels go  
to sing.  
So your thoughts become so manic And in the dark you  
scream alone  
Tomorrows just an apparition The foundation of your  
corner stone.

[Chorus]

Deep into the, Down into the. Deep into the blue  
Deep into the, Down into the blue

[Verse 2]

Is there a place where I can where I can drop you off?  
Is there someone I can call for you?  
You can tip toe through the water, But the rain will  
drench you through.  
So in the rain is where I left you. On that night so  
long ago.  
My trouble mind still tends to haunt me But how was I  
supposed to know.

[Chorus]

Deep into the, Down into the. Deep into the blue  
Deep into the, Down into the blue

[Verse 3]

My memorys over loaded Perhaps a prayers the place  
to  
start.  
When the pain is in remission We can defrag your  
human  
heart.  
So the next time that youre down here You better pop  
by and say hello.  
I might just be on the boil Youll never know until you  
give it ago.

[Chorus]

Deep into the blue, Thats turning black  
Down into the blue. Its a long way back.

[Verse 4]

So in the rain is where I left you On that night so  
long ago.

My trouble mind still tends to haunt me But how was I  
supposed to know.

My memorys over loaded Perhaps a prayers the place  
to  
start.

When the pain is in remission We can defrag your  
human  
heart.

[Chorus]

Deep into the, Down into the. Deep into the blue  
Deep into the, Down into the blue
