Bread to live like animals, in the mountains and holes  
in the ground.

Fighting for religion, whose foundation is unsound!  
Out of their mouths spit poison of vial corrosive hate  
Death is part of their lifestyle, a syphilis driven trait

[Chorus]

In bred Diseased  
Incest Deceased  
Inbred Diseased  
Incest In The Dark.

An offer to gift them freedom, a new start in a  
prosperous land.

But stealthily hidden in the baggage hists a deadly  
plan

Offer them a helping hand and they'll take it wrist and  
all.

An abortion of nature, one that will haunt us all.

[Chorus]

Once it starts it's to the death, committed to go all the  
way

I suggest you think seriously, these parasites are here  
to stay.

Racist slurs fire from the mailbox, like dogs covered in  
flees

Why should we be funding them, those brain dead  
oxygen thieves.
