"Kite"

Visit "[Kite](#)" on MotoLyrics.com

Yeah,... what up, it's been a while right ace?
I haven't wrote you since they transferred you northern
state
Remember me and you a week before the damn chase
... down, how we were saying we gonna hold the fam
down
So it's music so I said I'm gonan stick with it
I had a dream of making money with the... bizness
My little cousins... first hand... first division
It's fucked up how it happen how they caught you
slipping
But that's life when you up against the man system
A year again when I told you about...
You told me stick to that lil cous, that's good money
You told me keep that circle tight show a lot of love
though
That got blessings, niggas want they chose to be
humble
Cause for the younger generation you are more than
god
I'm the og now, they look up to me now
Whoever would have thought I'd see that day though
Hopefully in... time they'll let you out that cage though
Still in all I'm hearing, I'ma do it major
By the time you come home, we shouldn't have to
chase the paper

I got a kite full of hopes man,
... dreams remember...
And though I wish this kite was strong enough to fly
You gonn' wait this gonna have to do to that day
I got a kite full of hopes man,
I tie that knot double...

Make sure we gets to you on time
And you read every line
So I can revise you on mine

Yo, to my brother marcus, yo, I'm new to the family
Since o7 yo a lot of things changed
... your lil sis... got married right now
She be walking round with a double package now

Yeah, I'm talking 2 of them, hey yo I love them dudes
Well me a father now, you got new nephews
Duane's brilliant and his mom's doing great with him
Your mom miss you and she wanna see you here with
him
But every bad thing, things turn good too
We sent some pictures of the fam,... south for you
When you come home, you gotta stay low
Fuck the streets, you gotta change bro
These boys need man in they life
And you need to come home and help me get things
right
Because the hood ain't shit, but it's setup
To leave niggas wait up or in the jail cell...

I got a kite full of hopes man,
... dreams remember...
And though I wish this kite was strong enough to fly
You gonn' wait this gonna have to do to that day
I got a kite full of hopes man,
I tie that knot double...
Make sure we gets to you on time
And you read every line
So I can revise you on mine.
