Tomorrow today will be yesterday  
what difference will it ever make  
whitch day you choose to start to live your life

Do it now don't wait for later  
plunge into that sea of gators  
there's no way that they will get to you

Ref.  
Nothing comes from nothing done  
just flip it, turn it upside down  
the more you think the less you feel it's true

age it just a state of mind  
never leave your youth behind  
promise me you'll never be mature

-

Noone's gonna' live forever  
our mortality makes me shiver  
we can't afford to waste another day

Times will come and times will pass  
it's times like these we wish they'd last  
yet how i try, i still can't find the way

Ref.  
Nothing comes from nothing done  
just flip it, turn it upside down  
the more you think the less you feel it's true

age it just a state of mind  
never leave your youth behind  
promise me you'll never be mature

-

Life is what you let it be  
let's go while we're still young and free  
as the seasons change you will learn  
the way to go, is to crash and burn

Ref.

Nothing comes from nothing done  
just flip it, turn it upside down  
the more you think the less you feel it's true

age it just a state of mind  
never leave your youth behind  
promise me you'll never be mature
