### "What a Town"

Visit "[What a Town](#)" on [MotoLyrics.com](https://MotoLyrics.com)

What a town what a town what a town  
I fall in love every time I turn around

I looked to my left, looked to my right  
And what do I see?  
All the young girls dreaming, old ones scheming  
Call girls calling after me

What a town what a town what a town  
I fall in love every time I turn around

The music was playin, the people were swayin  
Keepin the beat  
In the alley, where they all rally  
On them old cobblestone streets

What a town what a town what a town  
I fall in love every time I turn around

Now I'm going home, I'm all alone  
I'm putting my day to an end  
So many places, so many faces  
All of these people my friends

What a town what a town what a town  
I fall in love every time I turn around...
