Single by choice Never marry, never ever divorce
Listen to the solitary voice Tell you I'm single by choice
Single by choice Never marry, never ever divorce
Listen to the solitary voice Tell you I'm single by choice
I know what you're thinking She can't be complete 'Til
the right kind of man Come sweep her off her feet Well
I've been there before Times four or times five With the
right kind of man Barely made it out alive Single by
choice Never marry, never ever divorce Listen to the
solitary voice Tell you I'm single by choice Alone but not
lonely Never marry, never ever divorce Listen to the
solitary voice Tell you I'm single by choice I know what
you're thinking She can't be complete 'Til the right kind
of man Come sweep her off her feet Well I've been
there before Times four or times five With the right
kind of man Got love in my day And I don't waste one
moment Wishing it awya Single by choice, single by
choice Single by choice, single by choice Single by
choice Never marry, never ever divorce Listen to the
solitary voice Tell you I'm single by choice Single by
choice, single by choice Single by choice, single by
choice
