So flowers fade away, in vein

My Mirror Moon  
You and I we have to stay

Stay with me  
I have made my sacrifice  
This pain inside is killing me  
I require you tonight  
Save me  
I have made my sacrifice  
I require you tonight  
Work our will by magic rite

All mighty Mirror Moon

Life far away  
Farewell I had to say  
He went overseas  
To roam and left me  
... stay

Save me  
I have made my sacrifice  
The pain inside is killing me

You have to hold me  
Hold me

My Mirror Moon  
Lay with me... Stay with me
