Somewhere before
I've met you
Maybe in another life
Maybe we just passed each other in our dreams
But I think I've met you before
The way you smell, the way you feel
Your voice is deep and warm
I think I...

Who are you, may I join you?
Who are you? Ah, can this be true?

I think I know you
I think I miss you
I'm too shy to look you in the eye

The way you smell
The way you move
Your voice is warm
Ah

Who are you, may I join you?
How can I suffer this way?
I feel so lonely...
