

All Out War "From The Bottom"

Visit "[From The Bottom](#)" on MotoLyrics.com

Fires consuming nations. The flames of discontent.
Burning from the bottom. Leaders breathe their final
breath. Drowning in their own oppression. Masses rise
and shut them out. Exploiting the work for too long.
Another empire's coming down. Vengeance from the
bottom. From the victims of deceit. Flames of injustice.
Bringing leaders to their knees. Dawn of a new
apocalypse cleansing of disease, beating back the
dogs of oppression, masses freed from the thieves.
Fall of the self righteous, butchers now lie in defeat.
Overthrow of demigods, politicians now pay for greed.
Burning from the bottom. Another empires coming
down. Flames consuming nations. Another king has lost
the crown.
