

All Out War

"Straight Towards Extinction"

Visit "[Straight Towards Extinction](#)" on MotoLyrics.com

Creation falls to madness, raped by political thieves.
Nations Cast to Fires, policy dictated by greed.
Embrace false justice, designed to ease our fears.
Immoral leaders. The end of time is here. Embrace the
end, as warheads fall. Killing civilization. Radiation
poisons the world. The earth is dying. Hell rages on the
streets. With all our progress, to destroy all we learned.
(Solo - Segarra). Doomsday is upon us, mass
destruction on a global scale. Missiles fly -
extermination. The human experiment has now failed.
All of creation poisoned by chemical war. Weapons of
destruction - new efficient ways to kill. Survivors live to
suffer, they are condemned to life. Struggle in the
aftermath. Our world has tumbled down. (Solo -
Apuzzo). Cease to exist. The Destroyers have prevailed.
The murderers have victory - the rule a world that's
failed. Our leaders have failed us and we have failed
ourselves.
