

## Pooh "Care"

Visit "[Care](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Care for a woman that cares for you  
and she'll never go astray  
care for the woman who shares your life  
with kindness and warmth everyday  
care for your woman and open wide  
say all the things you're feeling inside you  
tell her tell her you care.  
Stand by a woman who's lost her way  
and she'll always be in sight  
stand by the woman when she's in darkness  
and you'll be her guiding light  
stand by your woman when she needs you there  
and tell her you want her you need her and love her.  
Tell her tell her  
and make her really feel  
that your love is real  
do and she'll give to you  
just take the time to know her  
do your best to show her  
care if you care about her  
you'll never be without her.  
There was a woman who gave herself  
no matter what price it cost her  
there was a woman for me alone  
but I didn't care and I lost her  
if you have a woman then hold her dear  
just reach out and touch her whenever she's near you.  
Tell her tell her  
the little things you feel  
that your love is real  
do and she'll give to you  
just take the time to know her  
do your best to show her  
care if you care about her  
you'll never be without her.  
There was a woman for me alone  
now she's gone and I care.
