"Out There"

Visit "[Out There](#)" on MotoLyrics.com

We talked all night, were close to win the race
We talked the distance to be near
We made the world appear an easy place
We had a message that was clear

We were the children of the times to come
To give a lesson to the dumb
We talked about things we don't understand
Wisdom written in sand

Out there on your own
You swim or sink
And the secrets
You thought you've known
All fade to dust when
You face it alone
What you find out there
Out there on your own
