"2 My Question"

Visit "[2 My Question](#)" on MotoLyrics.com

Where have you been?
Call me up let me know when it ends
Where have you gone?
Write it down let me know what went wrong

(chorus)

What if maybe I don't wanna
hear you're thinking you've discovered
I'm not here for the answer
to my question
leave it on the corner bother
I am here before the other
wrap it up and and send it far away

you're coming up too quickly now
it's my fault
she's runnin' with her mothers crown
My how you've grown
melt it down let it go on its own

(chorus)

What is- what is- what is
what's your question
wrap it up and send it far away
