You've been running off all night
I'm not sure I wanna fight
You know what's going on
you've been here all along
freaky happening in line
I can't find you where's the time
you know what's going on
and I think it's kind of dumb

(chorus)

We're not just ordinary
we're extra- ordinary yeah

too much claiming it's alright
leave those circles in your mind
the favor's been returned
let's show them what you've learned
little sympathetic mind
hi- ho silver let it ride
I know what you're about
and I think it's kind of dumb

(chorus x2)

You've been keeping it down
it's just another day
green thoughts kept in a jar
there's nothing you can say
you've got somebody calling you
and she won't hang it up

(chorus)
